

Quality Specifications Wood and Board Furniture

Wood

We always use stoved wood that guarantees stability and the absence of wood pests, the wood is brushed and comes from sustainable forests. From our regular stock we use, Ash, American Oak, White Oak, Walnut, Beech, Birch, Maple, Mahogany, Cumaru, Teak. We also have within our reach endemic and exotic woods.

Board

In our processes, we use formaldehyde-free MDF and Multiplay, 6-micron-thick natural wood veneers for high durability and facilitate future maintenance.

Structure

All furniture is 100% assembled and glued, not fixed with nails. We have solid wood furniture, boards or mixed construction. We also add High humidity and high temperature resistant glue with radio frequency drying capabilities.

Lacquered

Waxes, oils, nitrocellulose, polyurethane, polyester or water-based lacquers are used according to the furniture's intended use. The furniture is sealed in 100% of its surface. We handle the best brands that guarantee always having the optimal option. We have a color laboratory to carry out special finishes and we offer pre-designed options.

Hardware

We use rust-proof hardware, the Hettich and Blum brands stand behind us. Concealed soft close sliders are our standard.
